**Sent:** Wednesday, November 14, 2012 11:46 AM  
**To:** Skari, Trudy (SITSD)  
**Subject:** Thank you to attendees

On behalf of the Montana Broadband Program we would like to thank you for attending the recent Tribal Broadband Summit in Great Falls.

We look forward to expanding the discussion on each reservation in the coming year. Please visit the Broadband Program web site [www.broadband.mt.gov](http://www.broadband.mt.gov) to keep abreast of any new developments and take the speed test.

Thanks again for taking time to attend our summit and we hope you found value in the information presented.

Trudy & Chad

Dear Northern Cheyenne Tribal Council:

The Federal Communications Commission (FCC) has adopted a rule requiring Range Telephone Cooperative, Inc. (Range) as an Eligible Telecommunications Carrier (ETC) to discuss with Tribal governmental officials a number of issues with the provision of services on the Tribal Lands. On July 19, 2012 the FCC released some proposed guidelines outlining various actions that need to be taken by Range and the Tribe to facilitate the discussion.

Although the FCC's rule is not yet effective, Range would like to set up a meeting with the Tribal officials in the near future. We know you have a new group of officers and we would like to introduce Allen Wetherelt, Plant Operations Manager and Robin Stephens, General Manager to them.

We would like to be put on the agenda on one of your upcoming meetings to discuss the FCC requirements and what we have planned for construction on the Northern Cheyenne Reservation in 2013.

Please let us know when our attendance at a meeting works best in your schedule and we will make every effort to be there.

If you have any questions, please contact either Allen or me at 406-347-2226.

Sincerely,

Robin Stephens

General Manager

December 13, 2012

Dear Crow Reservation Tribal Council:

The Federal Communications Commission (FCC) has adopted a rule requiring Range Telephone Cooperative, Inc. (Range) as an Eligible Telecommunications Carrier (ETC) to discuss with Tribal governmental officials a number of issues with the provision of services on the Tribal Lands. On July 19, 2012 the FCC released some proposed guidelines outlining various actions that need to be taken by Range and the Tribe to facilitate the discussion.

Although the FCC's rule is not yet effective, Range would like to set up a meeting with the Tribal officials in the near future. We know you have a new group of officers and we would like to introduce Allen Wetherelt, Plant Operations Manager and Robin Stephens, General Manager to them. If we could coordinate the meeting with the representatives from Nemont Telephone Cooperative, Inc. at the same time for that discussion that would be great.

We would like to be put on the agenda on one of your upcoming meetings to discuss the FCC requirements and what we have planned for construction on the Crow Reservation in 2013.

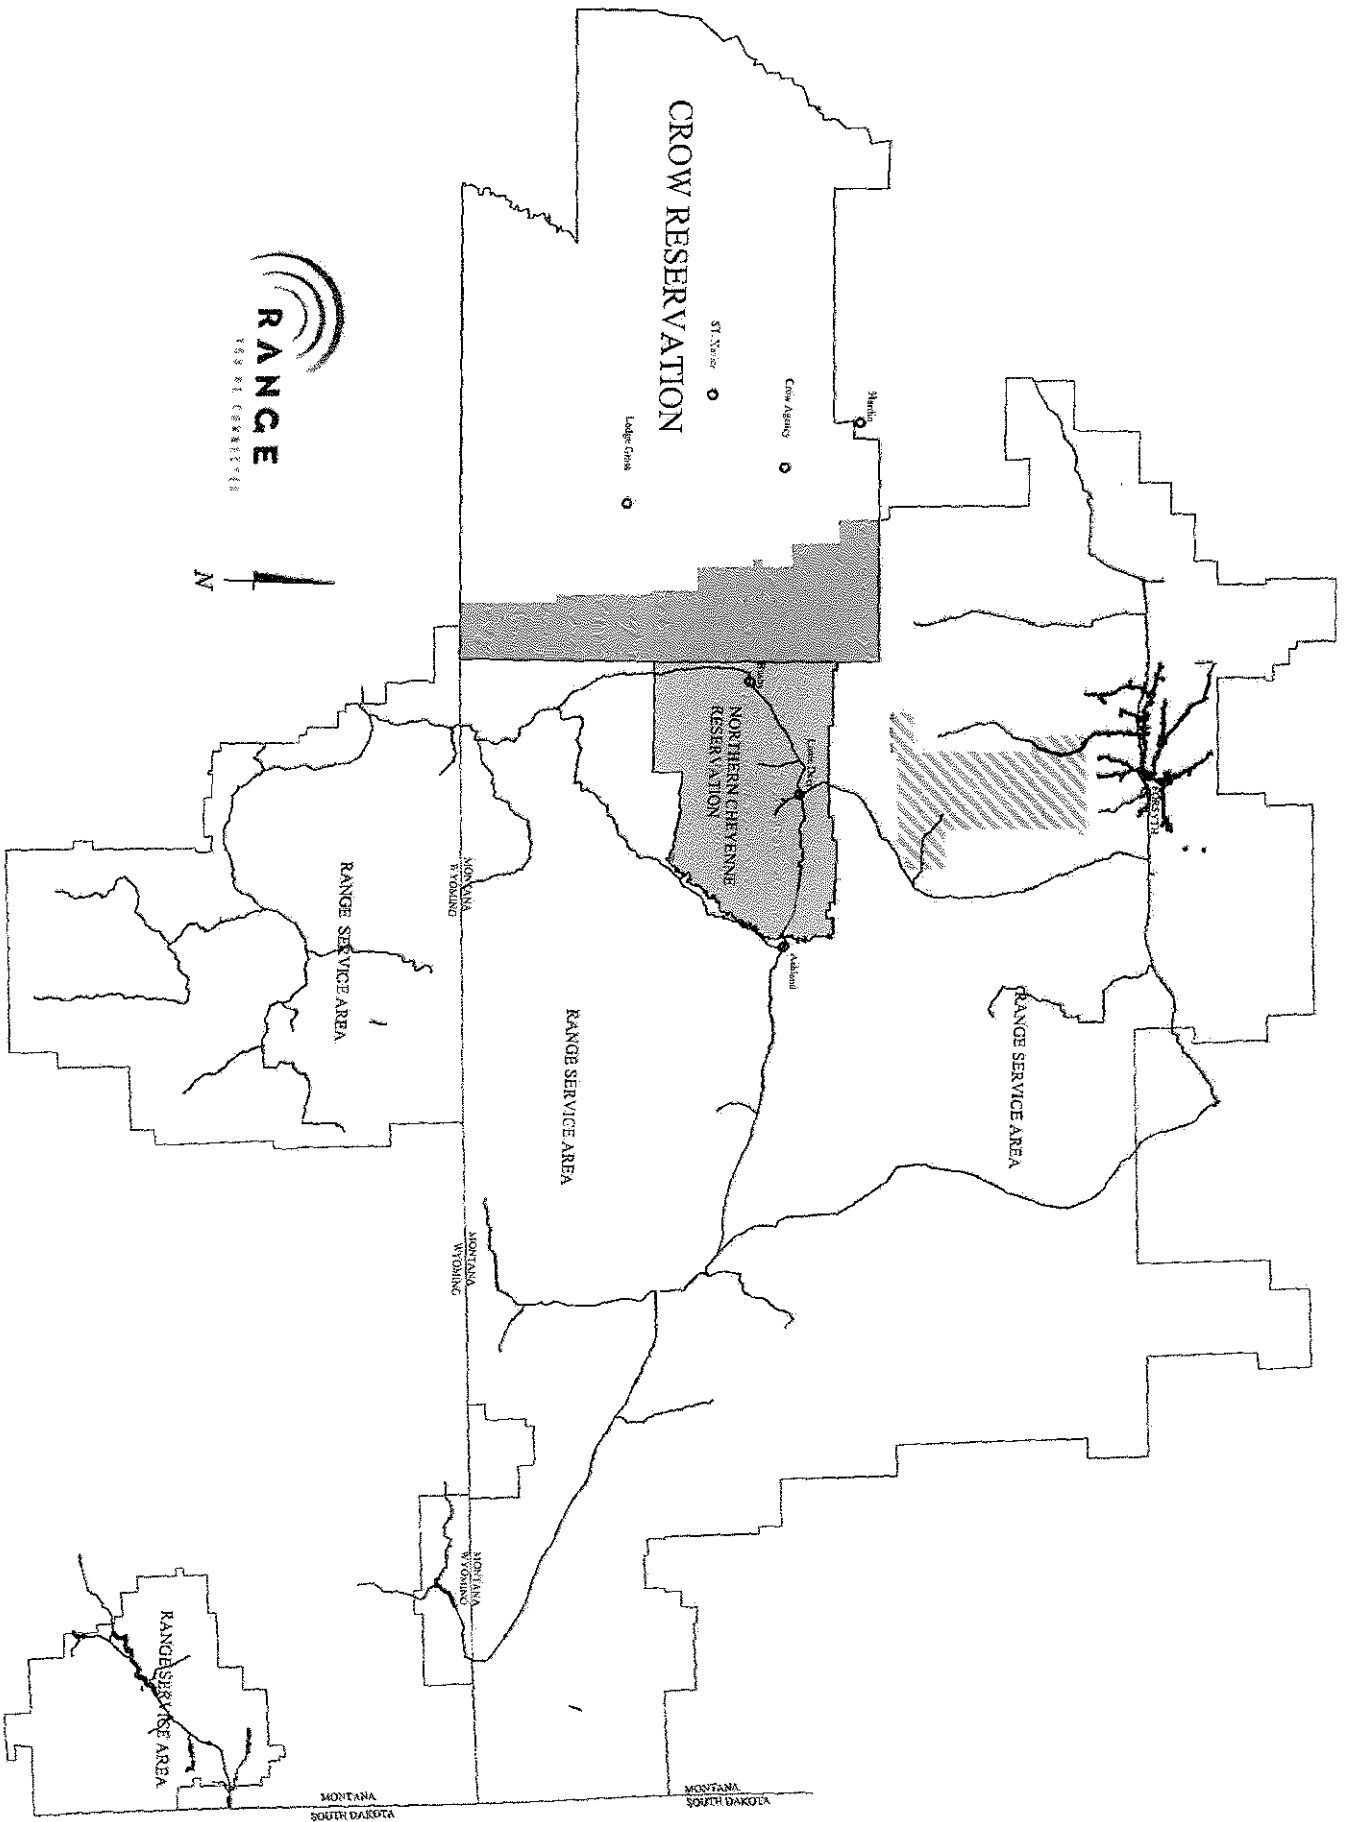

Please let us know when our attendance at a meeting works best in your schedule and we will make every effort to be there.

If you have any questions, please contact either Allen or me at 406-347-2226.

Sincerely,

Robin Stephens

General Manager
